

SIMS SERVICE INSTALLATION GUIDE

**Secure, Accredited, GDPR Compliant
Award-Winning Software**

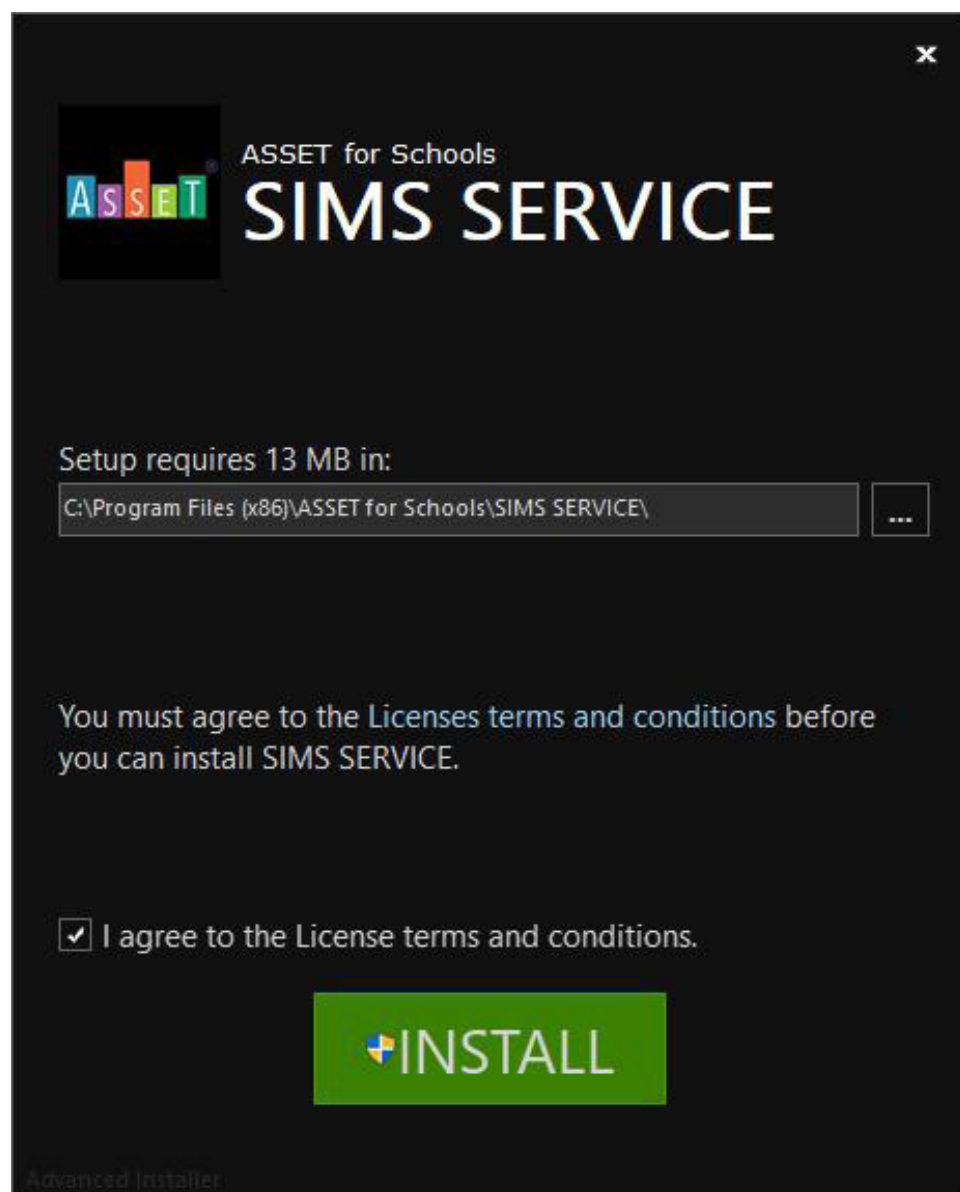

- 1) Download **ASSET SIMS Service** using the following link and save to your desktop

<http://sims.assetforschools.co.uk/>

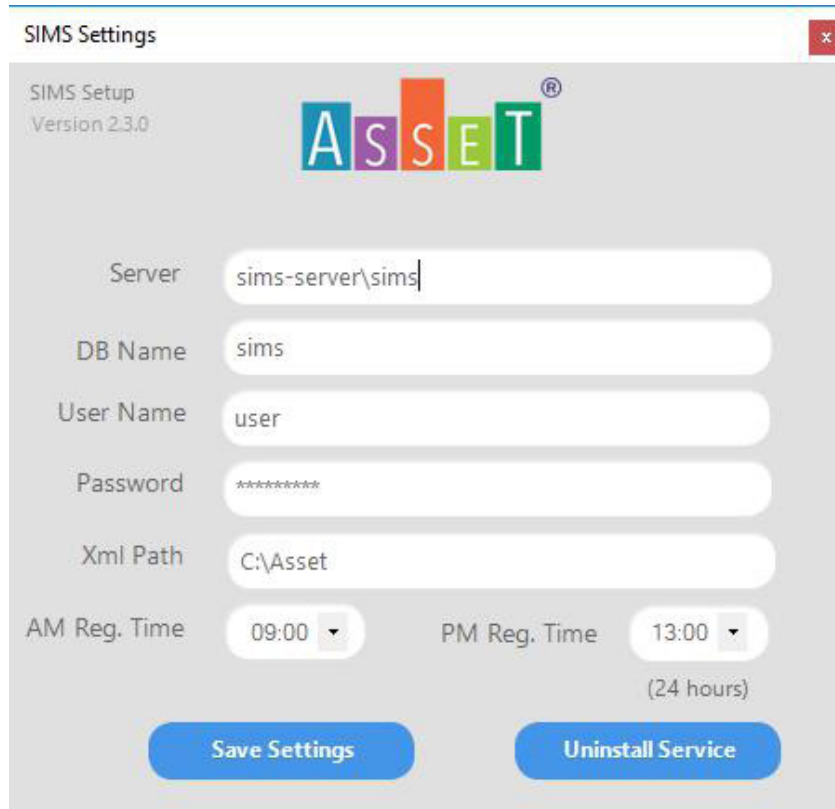

- 2) Double click on **ASSET SIMS Service.exe**

Please read the terms and conditions,

tick to agree then click **Install**

3) Fill in the SIMS server name, database name and SIMS System Manager user credentials

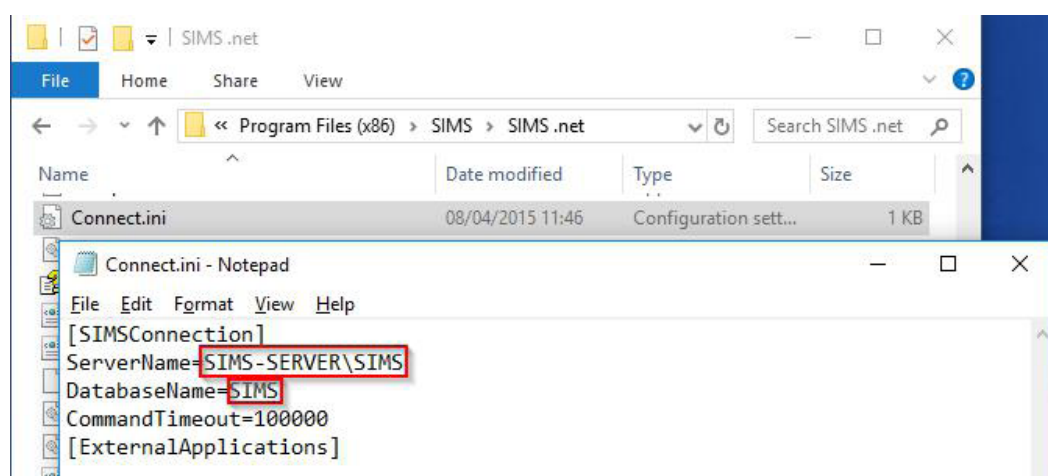

The image shows the 'SIMS Settings' window for 'SIMS Setup Version 2.3.0'. It features the 'ASSET' logo. The configuration fields are as follows:

Field	Value
Server	sims-server\sims
DB Name	sims
User Name	user
Password	*****
Xml Path	C:\Asset
AM Reg. Time	09:00
PM Reg. Time	13:00

At the bottom, there are two buttons: 'Save Settings' and 'Uninstall Service'. A '(24 hours)' label is positioned below the PM Reg. Time field.

You can find the server details in the **connect.ini** file located in your **SIMS.net** Program Files folder.

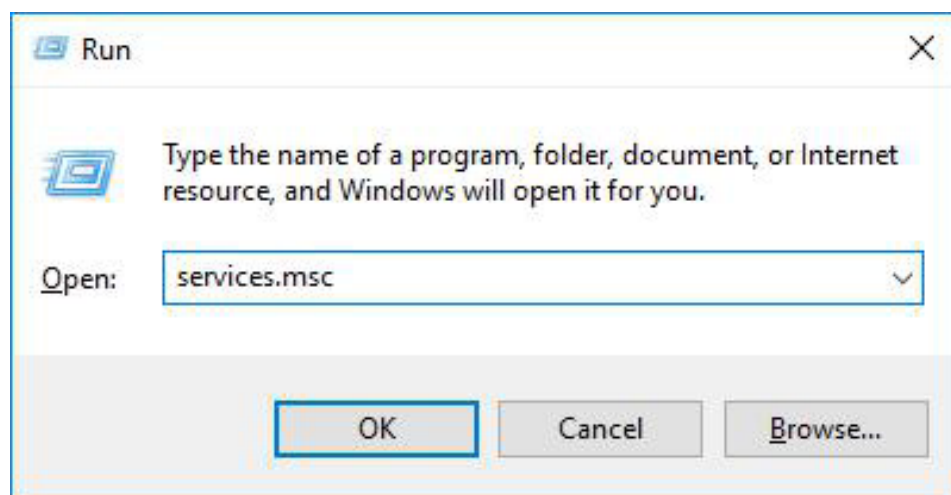

4) Leave the Xml Path as **C:\Asset**

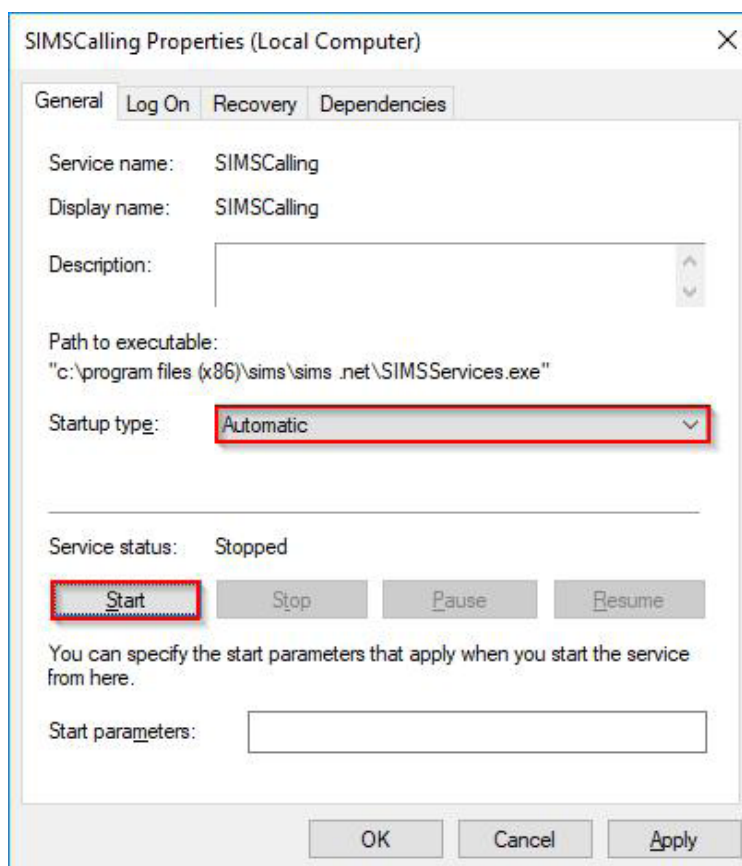

5) Select your morning and afternoon registration times then click **Save Settings**

The ASSET for Schools SIMS Service will now be installed

6) Press Windows Key and R then type **services.msc** and click **OK**

- 7) In the Services window, find and double click on SIMSCalling
Set the Startup type to **Automatic**, click **Start** then click **OK**

- 8) **ASSET for Schools SIMS Service has been configured and installed**
